709 Webster Drive
Monroeville, NJ 08343
856-881-2693
judithrisser@comcast.net
- LUNCH:** Space is available for eating. Bring your own lunch.

This program will cover the topics below.

Please note even though the sessions are designed for adults, there is very little that elementary ages, 4th grade and up, cannot absorb. Children should be accompanied by an adult. Child care will not be available.

Friday Evening 7 to 9 pm:

The Pillars of Evolution This session will show that science does not support the evolutionary theory, and gives Christians tools with which to combat the theory.

Aunt Lucy? This session uses humor to address the issues of humans evolving from ape like creatures, by exploring misinterpretations, exaggerations, and true evidence.

Saturday Morning 11 am to 4 pm (lunch break 12:15-1:15):

The Hunters & The Hunted Parts I & II Animal life, in all of its fascinating aspects, provides the verification for creation. Romans 1:20 indicates there is so much evidence available by studying anything in the natural world around us, that there is no excuse for not believing it.

The Horror of the Flood Understanding the flood (the purpose, the causes, the aftermath and the evidence) is very important to a biblically sound creation model.

The Mystery of the Dinosaurs A hot topic for today! What were dinosaurs? When did they really live? What actually happened to them? Does the Bible talk about them?

Lost Secrets of the Ancient Civilizations Ancient civilizations indicate a high level of accomplishment -- something to be expected if we were created "good" at the beginning, but labeled "mysterious" by those who believe in a four-million-year process.
